MASTER'S DEGREE Sep 2020 - Jun 2022
Constantine the Philosopher University | Nitra, Slovakia

BACHELOR'S DEGREE Sep 2017 - Jun 2020
Constantine the Philosopher University | Nitra, Slovakia

PROJECTS

I was part of a team project for a university to develop an event-based calendar using Laravel, Vue.js and Docker for deployment. The team consisted of 4 developers. I was the backend developer.

I had the opportunity to participate in a team project that was focused on the development of a mobile application for tracking and locating garbage cans around the city. The mobile app was built using Flutter, for the backend we used Spring Boot, MySQL and Docker for deployment. I was a backend developer.

I was part of a project whose goal was to design and implement a mobile application for the Department of Informatics FPVal UKF in Nitra, aimed at potential students, current students and employees.

HONORS & AWARDS

My diploma thesis focused on the optimization of big data applications for distributed processing won 3rd place at the student scientific conference.

ACTIVITIES

I like to spend my free time playing the guitar, improving my programming skills or in the company of friends.
